

# VHF Repeater Stations

Coastal VHF Repeaters at strategic locations significantly extend the range of VHF transmissions. A network of VHF repeater stations is developing on the WA Coast. The stations are both government and privately funded. To determine if a repeater network is available in your locality you should switch to a repeater channel and hold the microphone switch down and release it. If a brief 1 second tail (burst) of noise is heard then you are activating the repeater. If not, you are probably out of range. To discourage lengthy conversations a time restriction facility normally limits individual transmissions to 30 seconds. Other repeater stations are operated by Port Authorities and Commercial Operators and some are show on Department of Transport Marine charts where advised. Additional information on Repeater Stations will be included as VMRWA is advised.

Nearest Town / VMR	Repeater Site Name	VHF Frequency
Wyndham	The Bastion	80
	Lacrosse Island	81
Derby	Koolan Island	81
Port Walcott	Yacht Club (adjacent)	81
Exmouth	Harold E Holt Naval Base	22
	Charles Knife Canyon	21
