

Lancelin Sea Rescue Safety Officers Report

01-01-12

Did you all have a great Xmas and start of the New Year, Hope so!

The annual windsurfing event went very well again this year, thanks to all you great people for jumping in and helping, certainly makes my job real easy.

We have done a couple of orientation days for those people asking to come in and assist us, with the running of Sea Rescue and operating the boats, has really been great, just remember all you need is a Recreational Skippers Ticket, common sense, and a good attitude to your fellow volunteers and you too can operate the boats, after a bit of assessing and time on the water crewing, driving, and navigating.

At this stage I have been the only assessor doing this but there are some up and coming crew and volunteers that are qualified to do this as well, so I can soon take a back seat.

We will be having a series of Raffles to try and get some funds for the events and training so I hope you can all grab a few tickets, and who knows you may win!

The last day raffle we did for the “barrow load of goodies” was won by Dave Armitage BLUE ticket number E69.

One of the future raffles is a 3.5kv Inverter generator, great prize, donated by Ross’s Discounts and Salvage, and CD Dodd Industrial Salvage; this will be done in conjunction with the Lancelin Angling and Aquatic Club, only 100 tickets sold at \$10. Per ticket and will be drawn at Easter once all tickets are sold!

We are still looking for Radio operator’s guys and gals, so if you have some spare time, can you assist?

On the 26th Feb at 10am we will be having an appreciation morning for all the Volunteers who assist at Sea Rescue, bit of a chin wag, orientation and tucker will be on for young and old, hope you vologies can come along, and if I forget to send you an invite, come along anyway and “let me know”, so I don’t forget you in future, you guys are really important to us, I hope I don’t forget anyone.

Cheers

Please if you are able to support us in any way, contact us on 08 9655 1289, the phone does divert to the Radio person on the day, who will be able to point you in the right direction, if you can assist with anything it would be appreciative.

Safe Boating to all.

Pat Shinnick Chairman & Safety Officer of Lancelin Sea Search and Rescue Group

Australian Anglers Association Report

01-01-12

Well its getting to that time of the year again for me!

The Australian Anglers Association State Boat Angling Championships.

Its at Jurien Bay this year and I believe we at Lano can make a go of it and present a good team from the club. Its not too far up the road approx an hour and a half towing the boat up there.

Good fishing, a great bunch of "bull dusting" fisherpersons, all slinging the proverbial at one another, and trying to outdo one another, certainly makes for a great evening, and to win a teams event would be even better!!!

Hopefully there are some changes happening in the fishing world, as I have been led to believe that soon consultations will be in place for interested parties to see how well the demersal closures and limits have been working on the stock building up in the ocean, I have certainly seen a good increase in both size and numbers whenever I have gone out fishing, reports from other areas are the same, in fact the snapper are in big numbers and good sizes, Dhufish similar numbers, so it certainly has worked, so hopefully we can pressure, for a bit of releasing on some of the limits, especially the boat limit, I will keep you posted.

Hope I have provided enough info for you all, over the time I have done the reports, if there is anything you need or need any tips just give myself or your hard working committee members a call.

Cheers

**Good Fishing to all
